

CHOCOLATE CRAFT

Family Chocolate Making Workshop (with a Halloween Theme)

Thursday 31st October 2024
2-4pm

OVERVIEW

At our fun, spooky and chocolatey Family Workshop you'll learn to make chocolates like the professionals. You're shown the tricks of the trade with lots of tastings too! Its creative, interactive and fun... and at the end of the session you have your very own chocolate creations to enjoy. Share them with family and friends or keep them all to yourself. The choice is yours!

TYPICAL ITINERARY

You'll be given a brief overview of the session followed by a demonstration on chocolate making by a professional chocolatier.

Everyone will each make their own unique and individual ganache (cream & chocolate filling) using a wide range of natural ingredients and will pipe this into chocolate cups.

We are also able to accommodate Dairy Free and other dietary requirements. Please let us know when enquiring.

Whilst chocolates are setting, you'll be taught how to professionally decorate chocolates using fine piping techniques, and then you will decorate your own using these newfound skills!

After a brief practice session, you'll put your skills to the test in a lolly decorating competition. We give a special prize for the best decorated lolly!

At the end of the session everyone takes home a beautifully packaged box of their very own chocolates (average 21 chocolates per person) and a chocolate lolly, to wow friends and family.

SUITABLE FOR: anyone over the age of 8 years.
